Chapter 11
Case No. 13-10061 (PJW)

General Notes

Condensed Combined Debtor-in-Possession Financial Statements- The condensed combined financial statements and supplemental information contained herein are unaudited, preliminary, and may not comply with generally accepted accounting principles in the United States of America ("U.S. GAAP") in all material respects.

American Institute of Certified Public Accountants Statement of Position 90-7, "Financial Reporting by Entities in Reorganization under the Bankruptcy Code" ("SOP 90-7"), which is applicable to companies in chapter 11, generally does not change the manner in which financial statements are prepared. It does require, however, that the financial statements for periods subsequent to the filing of the chapter 11 petition distinguish transactions and events that are directly associated with the reorganization from the ongoing operations of business.

The Debtors' condensed combined financial statements contained herein have been prepared in accordance with the guidance in SOP 90-7. The unaudited condensed combined financial statements have been derived from the books and records of the Debtors. This information, however, has not been subject to procedures that would typically be applied to financial information presented in accordance with U.S. GAAP, and upon the application of such procedures, the Debtors believe that the financial information could be subject to changes, and these changes could be material. The information furnished in this report includes primarily normal recurring adjustments, but does not include all of the adjustments that would be typically made in accordance with U.S. GAAP.

The results of operations contained herein are not necessarily indicative of results that are expected from any other period or for the full year and may not necessarily reflect the combined results of operations, financial position and cash flows of the Debtors in the future.

Intercompany Transactions- Receivables and payables between the Debtors and / or Non-Debtors have not been eliminated.

Liabilities Subject to Compromise- As a result of the chapter 11 filings, the payment of prepetition indebtedness is subject to compromise or other treatment under a plan of reorganization. The determination of how liabilities will ultimately be settled and treated cannot be made until the Court approves a chapter 11 plan of reorganization. Accordingly, the ultimate amount of such liabilities is not determinable at this time. SOP 90-7 requires prepetition liabilities that are subject to compromise to be reported at the amounts expected to be allowed, even if they may be settled for lesser amounts. The amounts currently classified as liabilities subject to compromise are preliminary and may be subject to future adjustments depending on Court actions, further developments with respect to disputed claims, determinations of the secured status of certain claims, the values of any collateral securing such claims, rejection of executory contracts, continued reconciliation and other events.

GHP1, Inc. and GHP2, LLC. - The Debtors maintain one set of consolidated financials for the GHP entities not two separate financial books. The Schedules for the GHP Entities are allocated based on their respective general partner ownership percentages in Pension Futures (GHP1 – 99.4% and GHP2 – 0.6%)
