- Oh. so sorry. Now that you remind me, I remember. I checked the list to make sure I had not forgotten one. I had a nagging feeling that I did, but I forgot about the conference call. Apologies, I should have reminded you to send it in at the time.

- Missing topic is domain seizure by state agencies without process, transparency, accountability. From ICANN documents on web: "ICANN's commitment to transparency and accountability is emphasized in its foundational documents".
