

SURVEY RESPONSES

This survey should have strongly agree, my daughter has matured so well with the help of all the wonderful staff, i am heartbroken that this is her last year, i just wish she could stay here forever, i can't thank every member of staff for all they have done, amazing all of them and should be proud of the school they are running.

My child had some issues with another child in the class. I raised concerns and teachers were fab at discussing this with me and supporting my child appropriately.

Amazing teachers, amazing school! ☐☐

The head teacher miss voyce is amazing

Why are there no letters anymore
People can't always use schoop

1 Word
AWESOME

I think this school is amazing and my daughter receives so much support with not just her education but emotionally as well.

Is there any way to stop parents standing by main gates in the mornings whist smoking.. It not fair on children or parents that don't smoke. Also they take up most the pavement which then causes problems with children trying to get past

My children have attended this primary school since they started their school journey! If we have had any problems they have been resolved quickly!
Lovely school and great teaching!

Lovely school and great teaching!

SURVEY RESPONSES

Am so glad my child was allocated this school. Staff are friendly, positive and approachable. I love the fact they encourage mindfulness, meditation and yoga.

I am happy with how my son is doing in school, and I'm always told if there any issues

My child always looks forward to going to school and thoroughly enjoys all aspects of teaching and learning. As a parent it is always a pleasure to visit the school, whether that be watching school productions or receiving teacher feedback at parents evenings. The school is always very welcoming with all members of staff taking time out to greet parents and engage in conversations. Nothing is ever too much trouble. We are very happy with the standard of teaching and the progress our child has made so far. We look forward to watching her grow and progress in all aspects of her school life. We would not want her to attend school anywhere else!

miss voice the head teacher is amazing she treats all her students as if they was her own children. such a lovely and supportive school always got the children best interests at heart

Initially issues raised are responded to well, however action following is never really actioned leading to bad feeling and the issue re occurring

Absolutely love this school. My children been to a few schools in area and this one is by far the best with helping children who struggle a bit and also pushing the children to their highest potential

SURVEY RESPONSES

I moved my daughter last year to Hywel Dda primary school because of bullying at her old school. I can truly say she has come on tremendously. She loves the staff and has made many new friends. This school has proved to me that I made the right decision. My daughter is now in the right set groups and now is challenged to strive even higher, in which her old school didn't even try push her to her truest potential.

Both my children have settled into school well.. Which puts my mind at ease to leave them there. The school also treats my wishes for my children with respect.. I'm glad I chose to send my children here.

This School is brilliant

My children and grandchildren come to Hywel Dda I love the school

My children have been attending hywel dda for over 20 years in total. I've never had a days worry or any concerns whatsoever. Hywel dda and it's staff are the best for miles without question.

I think the school should get parent pay for dinners and school trips to make it easier for parents that work and can't make it to the school.

We think mrs voyce & her wonderful teaching staff do an amazing job of educating our children they also keep us well informed of up coming events I would like to use this opportunity to thank each & every one of them for the support they have given my children over the years

As my child is always well behaved and is top of the class, I find I don't get information about how he is getting on other than parents evening and then all I get is he's doing well.... More information would be nice, I'm invested in my child's education and would like to know what levels he is at etc
